Attached are the spreadsheets for the following PRPs:

Diosynth, Inc.

Ex. 5 / Deliberative Process

Diosynth, Inc. claims their materials would have no impact at ACS based on: materials contain high amounts of water; material was shipped in bulk not drums, therefore no leakage; and the materials were to be used as fuel by ACS thus no reclamation or incineration. They provided copies of evaluations of the materials they shipped to ACS to back these claims. No changes were made based on these claims and this review agrees with the database volume.
